To: Prospective Cell Phone Carrier  
RE: Cell Phone Service in Hyco Lake Area

We would like to go on record stating our desire and support for providing cell phone service in the Hyco Lake area of Person County. Presently cell phone coverage is mostly non-existent which results in several problems for our company and us as individuals.

It makes sense that most of the people who live and work in this area will switch to the carrier who serves this area. Our customers repeatedly ask us to recommend the carrier with the best service and this is a difficult question to answer. Over 200,000 people visit VIR annually and the majority of them are repeat visitors. Our company employs 227 people and other companies located at our site employ almost 100. We are growing all the time.

"Push to talk" or walkie-talkie type technology provided by the carrier would be an advantage.

We believe that there is considerable support and market share for the supplier who serves this area. We look forward to your response and expansion to our area.

Sincerely,

A handwritten signature in cursive script that reads "Connie G. Nyholm".
